CODE:

DATE:

REV.:

SERIES: MOBILE**MODEL: EASY 4.70**

Hourly Production	70 mc/h
Number of bins	4 inline
Storage capacity	40 mc
Mixer Twin Shaft OS soft yield	OS 2500 / 1.670 lts

 Basic machine description :

N.1 AGGREGATES STORAGE GROUP type BW 4.10, galvanized :

- N.1 Main body divided into n. 4 bins with a total storage of 40 mc thickness 3 mm
- N.4 Unloading cones thick 4 mm with 1 pneumatic cylinder each one
- N.1 Electrical vibrator for sand hopper
- N.1 Extracting belt width 800 mm Length 13.000 mm capacity 310 mc/h
- N.1 Compressor with tank 500 lts 4 kw
- N.1 weighing hopper thickness 4 mm with 1 electrical vibrator
- N.1 weighing system kg 3.000 with 4 cells, CE

N.1 Mixing Group mod.OS 2500 SKIP yield 2.080/1.670 lts

- Mixer mod. OS 2500
- Support Structure by « **PORTAL** » with service platform and ladder
- Water batch by weight
- N.1 Cement weighing hopper 650 kgs with 1 cell

N.1 Control Group :

- Control Cabin 1.400 x 2.200 mm
- Control board « électromécanique »
- Software PLC Betoncontrol

N.1 Supplied Documentation :

- CE
- Handbook in mother tongue (English)
- Drawings and foundation plans

Options :

- Kit accessories for silos cement
- Silos diam 2400 mm up to 60 Tons
- Silos diam 3500 sectors made up to 120 Tons
- Additive dosing system by weight
- Moisture probe
- Software PC
